Pasadena ISD Winner of SIF Excellence Awards

Addison, TX (May 12, 2010) – Mizuni, Inc. congratulates Pasadena Independent School District (ISD) in Pasadena, Texas for receiving a 2010 Schools Interoperability Framework (SIF) Excellence Award. Pasadena ISD was chosen as the winner in the category for Outstanding Local Education Agency (LEA)/Horizontal SIF Implementation. Winners were announced at the SIF Association End User Meeting in New Orleans on May 6, 2010.

The SIF Excellence Awards honor those organizations in which individuals and teams have done an exceptional job implementing a SIF Solution. The Outstanding LEA Implementation category recognizes preeminent SIF Implementations at a school district, school, or other educational institution. The SIF Implementation Specifications are a set of industry-developed and supported technical blueprints that enable PK-20 applications to work seamlessly together as a single, efficient system.

In 2007, Pasadena ISD quickly and efficiently implemented SIF, integrating six disparate district data systems in only four months. This implementation integrated current data and two years of historical data for Pasadena's 52,000 students.

Perhaps the greatest impact of the implementation has been on instruction. After implementing SIF and the Mizuni Solution to meet the district's enterprise data management needs, teachers are now able to view a range of student data, including demographics, attendance, and multiple years of assessment data, and are equipped to quickly identify trends and changes in student performance.

"We are honored to be recognized for our efforts in integrating best-of-breed data systems utilizing SIF. Pasadena ISD is committed to improving overall data efficiency and using technology to inform instruction," states Mr. Bob Daugherty, Pasadena ISD.

"This award recognizes Pasadena's efforts, including SIF implementation, to transform the way the district uses information to improve the education of their students," says Mr. Ignacio Ybarra, President of Mizuni, Inc. "Mizuni is privileged to partner with Pasadena ISD to help make their vision a reality."

About Mizuni, Inc.

Fusing a commitment to improving education with decades of experience developing corporate enterprise solutions, Mizuni, Inc. has pioneered an innovative data-driven decision-making solution for education. The Mizuni PK-12 Enterprise Information Management Solution for School Districts informs instruction and improves student achievement by providing educators with accurate, real-time information. Our solution is comprised of the Mizuni Data Warehouse, Mizuni Dashboard Suite, Mizuni Zone Integration Server and Mizuni SIF Agents. Also available is the Mizuni PK-20 Enterprise Information Management Solution for States designed to meet the unique information needs of State Education Agencies. Today, over 700,000 students throughout the United States benefit from the Mizuni Solution. For more information, please visit www.mizuni.com.
